

simple. profitable. escrow accounting solutions.

Every day you're faced with critical decisions on how to make your escrow deposit business as efficient and profitable as possible. Decisions on how to streamline operations. Decisions on which solutions will best track your accounts. And decisions on what technologies will most improve your bottom line.

Given the strategic link between technology and profitability, it's no surprise that so many small- to medium-sized banks, law firms, real estate brokers, property managers and municipalities use Escrow Manager's accounting applications to efficiently process and maintain their escrow deposits.

No matter how complex your escrow management process is, solutions from Escrow Manager will cut your administrative costs by vastly improving your workplace efficiencies. Our applications enable you to efficiently record account data, accelerate account processing and accurately report account performance—all within the crazy deadlines of your daily operations.

Our Master/Sub Tracker escrow accounting system, Security Tracker landlord/tenant rent security system and Client Tracker client escrow account management system are designed for users with little to no technical expertise. The applications are easy to use and are designed to eliminate the need for labor-intensive manual calculations, record keeping or confusing spreadsheets.

Each application is designed to work with today's desktop technology and can be interfaced with your core accounting systems. Implementation and training can be accomplished in as little as a few hours, keeping your overall software investment affordable. Extensive reporting for both bank and client, as well as detailed audit trails are core features of each application.

When selecting Escrow Manager's accounting applications, your organization will benefit from an experienced team of escrow managers, technical experts and industry consultants. In addition to installation and training, we provide ongoing support, customized programming, maintenance services, telephone support, quality assurance and technical consulting—all customized to meet your individual business requirements. Each Escrow Manager application requires a one-time license fee with optional annual maintenance. There are no additional fees based on the value of your deposits or number of accounts.

Decisions on how to increase the profitability of your escrow business need not be difficult. With over a decade of experience in delivering simple, efficient and economical escrow accounting solutions, we have enabled North American organizations of all sizes and complexities to benefit from improved workplace efficiencies, faster account processing and accurate customer reporting.
